Problem Resolution

If you have a Static IP address from Verizon, and have received confirmation that your Static IP address has been applied. You will need to configure or change the APN in your Mobile settings.

Verizon uses the following APN's per region.

1. ne01.vzwstatic (North East)
2. nw01.vzwstatic (North West)
3. so01.vzwstatic (south)
4. mw01.vzwstatic (Midwest)
5. we01.vzwstatic (West)
