[Help Desk](#)

[Homepage](#)

Set up mobile device

 [Complete guide](#)

How to connect your phone or tablet:
iPhone, iPad, Android devices,
Windows Phone or RT, Blackberry

Check individual settings for a user under ActiveSync tab from [Users](#) page

Configure domains

 [Set up mail flow with MX record](#)

Receive emails on domains
that Intermedia does not host

 [Simplify setups with autodiscover](#)

Automate mail client configuration,
have free-busy information in the calendar
and Out of office messages

Exchange Settings

Choose your set of settings depending on the Default Exchange server

Default Exchange server

MBX082-E1-VA-1.EXCH082.serverpod.net

	West site	East site
Exchange server	MBX082-W1-CO-1.EXCH082.serverpod.net	MBX082-E1-VA-1.EXCH082.serverpod.net
Exchange proxy setting	west.EXCH082.serverdata.net	east.EXCH082.serverdata.net
Exchange domain	EXCH082	EXCH082
Incoming mail (POP/IMAP)	west.EXCH082.serverdata.net	east.EXCH082.serverdata.net
Outgoing mail (SMTP)	west.EXCH082.serverdata.net	east.EXCH082.serverdata.net
Note: These settings are for Exchange mailboxes only. If you have POP/IMAP mailboxes on your account, click here to find settings for them. POP/IMAP mailboxes availability depends on your account plan.		
Autodiscover	ar-east.exch082.serverdata.net	
MX records	west.smtp.mx.exch082.serverdata.net, east.smtp.mx.exch082.serverdata.net
