

iPhone Sync with Exchange

1. Under settings, go to Mail, Contacts, Calendars and select "Add Account"
2. Click on **Microsoft Exchange Server**
3. Enter your Company email address, the local domain (all lower case), and put the user name you use on the computer (e.g. username), and your password (e.g. pw1234), then click Next in the top right corner
4. Once the connection is complete, in the new box that appears between the email and domain, enter mail.webdomain.com exactly as shown.
5. Then click Next (top right)
6. Click Accept when prompted
7. Another screen will appear prompting you to sync mail, contacts, calendars. Click Next.
8. You are now complete.
9. If you have any questions about how to use features on your iphone, please refer to your manual or call Apple at **1-800-692-7753**
